TAYYBA SAVEERA

Software Engineering Graduate

PROFILE

As a software engineer, I bring a blend of creativity and technical expertise to my work, consistently producing robust and scalable solutions. My dedication to craftsmanship and problem-solving ensures that I thrive in dynamic and challenging environments, delivering impactful results with finesse.

EDUCATION

2020 - 2024
BS Software Engineering,
FAST, NUCES
– Islamabad

KEY SKILLS

- MERN Stack
- CSS
- HTML
- JavaScript
- Problem-solving
- Team leadership

CERTIFICATIONS

Aug - 2023   **Responsive Web Design**

Feb - 2023   **Frontend Development**

Aug - 2023   **JavaScript Algorithm**

Aug - 2023   **JavaScript Course**

PROFESSIONAL EXPERIENCE

Web developer, Intern
Scorpbit Technologies, Islamabad
Jun 2023 - July 2023

- Developed expertise in web development with a focus on JavaScript and React.
- Working with the MERN stack, I gained hands-on experience building dynamic and responsive web applications.
- This internship provided me with valuable insights and practical skills, preparing me for a successful career in web development.

PROJECTS

Vision Studio

- Ensured dataset integrity through meticulous validation procedures.
- Applied cutting-edge image classification models for accurate image categorization.
- Employed advanced object detection techniques to identify and locate objects within images precisely.

Sentiment Analysis

- Conducted sentiment analysis on large text datasets using NLP techniques.
- Implemented machine learning models to accurately classify sentiment polarity.
- Enhanced model performance through advanced pre-processing and feature engineering techniques.

Kernal Kart

- Developed MERN e-commerce app, Kernal Kart, for seamless CRUD operations.
- Deployed app on the cloud for global accessibility and scalability.
- Led full project lifecycle, ensuring robust and user-friendly solutions.
